CSE 241
Object Oriented Programming
Fall 2011
Homework # 7
Files and Formatted I/O
Due date December 5th 2011

Do the programming project 15 of chapter 12 in Savitch. Test your program with the attached test.txt file and with at least 3 other files.

Notes:
- You should strictly follow the homework submission details and email your homework to the TA.
- Your program should use the OO principles. Always use classes and C++ streams.
- Your program should be well commented and indented.
- Attach a text file showing your test results.
